

PARENT CLUB WELCOMES YOU BACK TO SCHOOL!

The mission of the Cold Spring School Parent Club is to create opportunities for the students, their families and the larger community to become involved with each other thereby engaging and empowering all of the students of Cold Spring School.

Parent Club sponsors many activities throughout the year that provide direct educational enrichment as well as great sources of fun and excitement for the entire community. These activities include Fall Festival, Turkey Trot, Science Fair, and Art Faire just to name a few! It is also a great way to meet new people and families.

All of these wonderful things are made possible through the help and dedication of all the parents and families of the Cold Spring School Community.

There are many opportunities currently open within Parent Club and we encourage you to join us at our monthly meetings as we work to maintain this wonderful school.

Please join us for the following Welcome-Back Parent Club activities during the first week of school:
